ABOUT US

Mashareea Al Sultanate LLC (MAS), is a well-established distributor company based in the Sultanate of Oman. Since its inception in 1994, MAS has been dedicated to providing a range of solutions in demanding sectors, such as: Military, Lubricants Automotive Spare Parts, Automotive Workshop Readiness, aluminum Fabrication, Steel Construction, Industrial Valve Supply, and Property Development. Our commitment to excellence and innovation sets us apart in the market. MAS offers a wide range of products which are marketed and distributed countrywide through network appointed distributors. Our primary goal is to provide the customers with optimum solutions.

Vision

“Empowering Security and Progress”

Our vision is to be a leading force in providing cutting-edge defense solutions and contributing to Oman’s growth through sustainable property development. We envision a safer, more prosperous future for our nation and its people.

Mission

Defense Excellence:

We are committed to delivering top-tier defense products and services. Our mission is to equip our armed forces with the best tools, ensuring their preparedness and effectiveness.

Property Innovation:

In the property sector, we strive to innovate and create spaces that enhance quality of life. Our mission is to develop properties that meet the needs of businesses, residents, and communities.

Collaboration and Trust:

We believe in strong partnerships. Our mission is to collaborate with stakeholders, clients, and investors, fostering trust and mutual growth.

Sustainability and Responsibility:

We are dedicated to sustainable practices. Our mission is to develop properties that harmonize with the environment and contribute positively to society.

VALUES

At **Mashareea Al Sultanate LLC (MAS)**, our core values guide every aspect of our business operations and interactions. These principles reflect our commitment to our customers, partners, and the community, ensuring that we remain true to our mission and vision. Our key values are:

Integrity

- We uphold the highest ethical standards in all our dealings.
- Transparency, honesty, and accountability guide our actions.

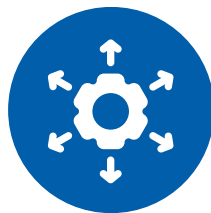

Excellence

- We strive for excellence in everything we do.
- Quality, precision, and continuous improvement are our hallmarks.

Innovation

- We embrace innovation as a driving force.
- Creativity and adaptability lead us to new solutions.

People-Centric Approach

- Our people are our greatest asset.
- We value diversity, respect, and teamwork.

Community Impact

- We are committed to making a positive impact on our community.
- Social responsibility and community development are integral to our values.

Core Areas of Expertise

Defense Services

Defense Services

At MAS, we specialize in supplying and supporting Defense and Military Products. Our expertise includes:

Main Battle Tank (MBT) Solutions:

- Supply of MBTs and spare parts
- Overhauls and maintenance services for MBTs

Artillery Support:

- Comprehensive solutions for artillery systems

Water and Fuel Systems:

- Ensuring reliable water and fuel supply for military needs

Core Areas of Expertise

Automotive and Machinery Oils & Lubricants

Automotive & Machinery Oils and Lubricants

Quality Lubrication Solutions:

- We specialize in supplying high-quality automotive and machinery oils and lubricants.
- MAS has formed a strategic alliance with AXCL Lubricants and Belgin, leveraging our combined expertise to enhance the quality and reach of our products.
- AXCL is a leading lubricants manufacturer Company, it exports to over 45 countries in 4 continents, AXCL branded lubricants have made a profound mark in the lubricants industry. Being ISO 9001:2015 QMS certified and approved by major auto manufacturers such as Daimler-Chrysler, Volvo, Mercedes-Benz, Volkswagen, and MAN has proved AXCL lubricants to be of the highest standards.

MOTOR ENGINE OILS

DIESEL ENGINE OILS

BRAKE FLUIDS

AUTOMOTIVE AND
INDUSTRIAL GREASE

INDUSTRIAL OILS

MARINE OILS

ANTIFREEZE & COOLANTS

BELGIN

Belgin Oil, one of the leading lubricants & grease manufacturers in Turkey, started its operations in 1953, Goztepe, Istanbul. BELGIN is continuously growing in line with its vision and strategy in a sustainable manner.

PRODUCTS

METAL WORKING FLUIDS	INDUSTRIAL LUBRICANT
WATER SOLUBLE CUTTING FLUIDS	HYDRAULIC OILS
NEAT CUTTING OILS	TURBINE OILS
HONING AND EROSION OILS	INDUSTRIAL GEAR OILS
CORROSION PREVENTIVE OILS	COMPRESSOR OILS
NEAT FORMING AND DEEP DRAWING LUBRICANTS	MOLD RELEASE LUBRICANTS
SOLUBLE FORMING AND DEEP-DRAWING LUBRICANTS	GLASS PROCESS LUBRICANTS
WIRE DRAWING FLUIDS	TEXTILE LUBRICANTS
QUENCHING OILS	SHOCK ABSORBER OILS
HOT-FORMING AND FORGING LUBRICANTS	CHAIN OILS
CLEANERS	GREASES
SLIDEWAY LUBRICANTS	VARIOUS LUBRICANTS

Core Areas of Expertise

Automotive Spare Parts

Automotive Spare Parts

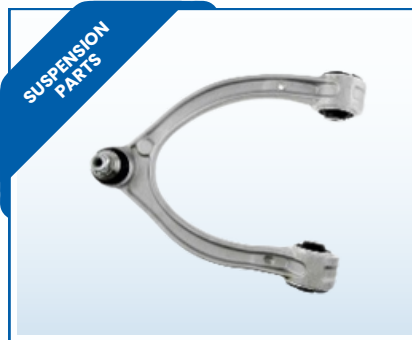

Automotive Spare Parts:

We specialize in supplying high-quality automotive consumable spare parts.

AIR CONDITIONING MACHINE

Core Areas of Expertise

Aluminum Fabrication

Aluminum Fabrication

Engineering Excellence:

We are leading manufacturing aluminum products, such as: windows, curtain walls, automatic doors, glass shop fronts, partitions, and more.

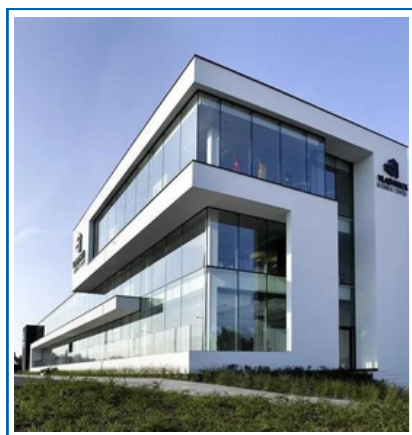

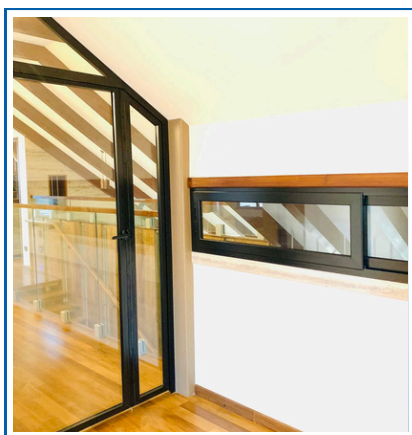

Core Areas of Expertise

Glasss Fabrication

Glass Fabrication

Precision Glass Fabrication:

Mas Industrial also offers expert glass fabrication services, delivering custom solutions for various architectural and industrial needs. Our precision craftsmanship ensures high-quality results for every project.

Core Areas of Expertise

Steel Construction & Maintenance

Pipeline Construction and Maintenance

Pipelines: Proficiency in designing, constructing, and maintaining pipelines for various applications, including oil, gas, water, and petrochemicals.

Pipeline Integrity: Ensuring the safety, reliability, and longevity of pipelines through regular inspections, repairs, and corrosion prevention measures.

Carbon Steel Fabrication

Structural Steel: Expertise in fabricating and installing carbon steel structures, such as beams, columns, trusses, and frames.

Pressure Vessels: Designing and manufacturing pressure vessels, tanks, and containers using carbon steel materials.

Piping Systems: Fabricating carbon steel pipes, fittings, and flanges for industrial processes.

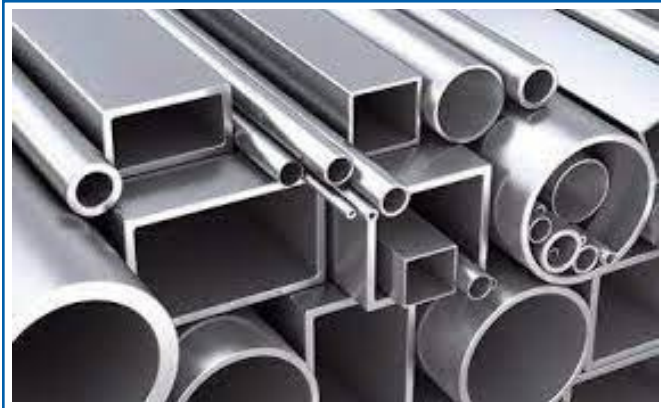

Core Areas of Expertise

Stainless Steel Expertise

Stainless Steel Expertise

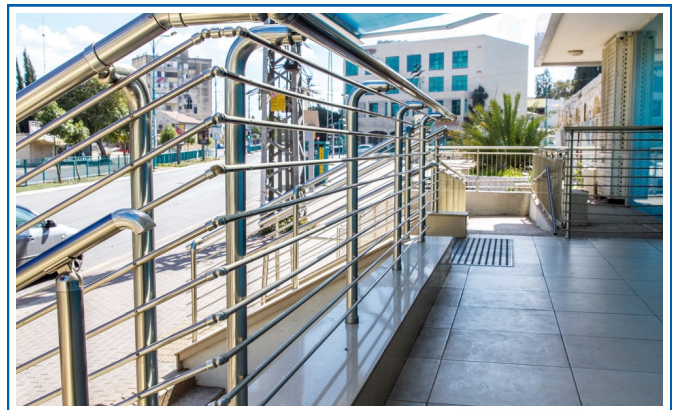

Corrosion Resistance: Knowledge of stainless steel grades (e.g., 304, 316) and their resistance to corrosion, making them suitable for harsh environments.

Food and Pharmaceutical Industries: Experience in fabricating stainless-steel equipment for food processing, pharmaceuticals, and clean rooms.

Architectural Applications: Expertise in creating stainless steel architectural elements, such as handrails, balustrades, and cladding.

Core Areas of Expertise

Industrial Valve Solutions

Industrial Valve Solutions

Gate Valves:

- Gate valves are ideal for on/off control of fluid flow. They provide a tight seal and low pressure drop.
- Applications: Oil and gas pipelines, water distribution, and more.

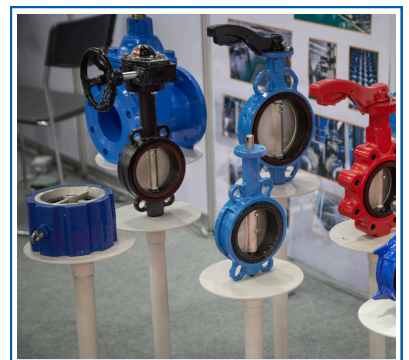

Ball Valves:

- Ball valves offer quick and reliable shut-off. They have a rotating ball with a bore for fluid passage.
- Applications: Process industries, chemical plants, and HVAC systems.

Butterfly Valves:

- Butterfly valves have a disc that rotates to control flow. They are lightweight and cost-effective.
- Applications: Water supply networks, fire protection systems, and HVAC.

Check Valves:

- Check valves allow flow in one direction only, preventing backflow.
- Applications: Pump systems, steam lines, and wastewater treatment.

Industrial Valve Solutions

Globe Valves:

- Globe valves provide precise flow control. They have a globe-shaped disc.
- Applications: Steam systems, power plants, and refineries.

Pressure Relief Valves:

- Pressure relief valves protect equipment from overpressure by releasing excess fluid.
- Applications: Boilers, pressure vessels, and safety systems.

Control Valves:

- Control valves regulate flow, pressure, and temperature. They are essential for process automation.
- Applications: Chemical processing, power generation, and refineries.

Core Areas of Expertise

Property Sector

Property Sector

In addition to services, MAS is actively involved in the property sector.

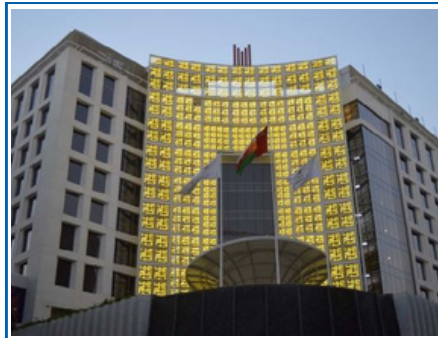

Our property-related services include:

- **Advisory Services for Foreign Direct Investment (FDI):**

- We assist companies considering FDI into the Sultanate of Oman. Our expert team provides valuable insights and guidance.

- **Property Development:**

- We undertake property development projects across various segments:
 - Industrial Buildings: Designing and developing industrial facilities
 - Commercial Buildings: Creating functional and appealing commercial spaces
 - Residential Buildings: Crafting comfortable and modern residential complexes
